PROFESSIONAL EXPERIENCE

Internship Trainee / Lead Developer – DOST Regional Office 1 **May**
May 2025 – July 2025

- Led the development of FUELECTRAX, a full-stack resource monitoring system using the PERN stack (PostgreSQL, Express.js, React, Node.js), delivering a centralized platform for tracking fuel and electricity consumption across multiple offices.
- Designed and implemented frontend interfaces, backend APIs, database schemas, JWT authentication, and role-based access controls, enabling secure access for administrators, super administrators, and office personnel.
- Developed inventory management, reporting, filtering, search, and archival modules that streamlined resource monitoring workflows and improved data organization across participating offices.
- Containerized and optimized the application using Docker, resolving deployment and integration issues to improve portability, maintainability, and system performance.
- Managed project progress, feature integration, and stakeholder presentations, delivering multiple system demonstrations to supervisors and end users while incorporating feedback into iterative releases.

EDUCATION

Bachelor of Science in Computer Science **2022 - 2026**

- **School:** Don Mariano Marcos Memorial State University
South La Union Campus (DMMMSU-SLUC)
- **Organization:** Computer Science Club - President
- **Awards:** Magna Cum Laude, Web Programmer of the Year,
System Analyst of the Year, College Best Thesis in Governance

Science, Technology, Engineering, and Mathematics **2020 - 2022**

- **School:** Don Eulogio De Guzman Memorial National High School
- **Award:** With High Honors

Special Science Curriculum (Science, Technology, and Engineering) **2016 - 2020**

- **School:** Don Eulogio De Guzman Memorial National High School
- **Award:** With High Honors

CERTIFICATIONS

- Philippine National IT Standards Foundation, Inc **2026**
- Scrum Foundation Professional Certification SFPC **2025**
- Introduction to Natural Language Processing (NLP) – Online Course **2024**

SKILLS

- **Technical Skills:** SQL Database Management, Proficient in C, Java, and Python Languages, Web Development using HTML, CSS, PHP, JavaScript, and PERN stack, Photo editing in Photoshop, Document preparation and presentation in Microsoft Office and Google Workspace, Software Engineering, Artificial Intelligence, Machine Learning, Internet Of Things (IoT)
- **Personal Skills:** Detail-oriented, Organized, Collaborative, Adaptable, Open-Minded, Respectful, Active Listener, Communication, Leadership
- **Languages:** Ilocano, Filipino, English
- **Interests:** Technology, Game, Music, Anime, Travel
